- Problem solving

EXPERIENCE

October, 2023 - March, 2024

- **Volunteer**
Women Techsters Fellowship (Tech4dev)
 - I wrote custom HTML and JavaScript for existing websites.
 - I wrote clear, clean codes for various projects.
 - Contributed to the design of intuitive user interfaces enhancing usability and overall user experience.
 - Provided valuable input during team meetings contributing to the continual improvement of development processes and methodologies.
 - Completed assigned task promptly demonstrating excellent time management and organization skill
 - Partnered with team members to learn best practices in software design.
 - Worked closely with senior developers, absorbing critical knowledge and developing technical expertise in various programming languages and frameworks.

June, 2023 - September, 2023

- **Intern**
Twinku
 - I participated in peer code reviews, providing constructive feedback on best practices while learning from colleagues' expertise.
 - I adapted quickly to a constantly changing deadline driven environment.
 - Developed user interfaces and maintained responsive web pages with modern JavaScript frameworks, HTML5 and CSS3.
 - Advocated for well-tested and documented, high- quality code.
